The County Room Tax is 8% and doesn't apply once a person has stayed longer than 28 days. Recreation Board secretary Robin Hicks commented there is currently 1 RV park in Eureka paying the room tax and 1 in Crescent Valley, changing the ordinance would put the responsibility on more businesses.

1. Presentation by the committee appointed to provide 4-10 work week data to the Board of County Commissioners. **(Discussion)**

The 4-10 committee made up by Human Resource Director Cristina Lopez, Assessor Michael Mears, Clerk Recorder Kathy Bowling and CIO Misty Rowley presented to the board data collected supporting a 4-10 work week. The PR firm Market Share sent out a survey to 72 employees, department heads and elected officials, they had 60 return showing a strong support of the 4-10 work week. Assessor Mears summarized the results of the survey, 82.5% were in favor of the 4-10 work week, 53% of the employees stated they would consider moving to a position if it offered a 4-10 schedule. The employees who already work a 4-10 stated they have found zero challenges operating under a 4-10 schedule. The survey also indicated that recruitment and retention would significantly improve under a 4-10 schedule. They discussed the lunch hour would change to a half hour lunch open from 12:30 to 1 lunch hour to be open for the employees at the school district. Both the DMV and eRecording in the Clerk Recorders office have to close half an hour early, being open until 5:30 will give mine workers more availability during shift change. Assessor Mears also mentions the DMV is going completely online and the state is potentially closing satellite offices, which would include Eureka. Clerk Recorder Kathy Bowling mentioned that her office tracked foot traffic for 9 months, and over 37 Fridays 20 of those saw 0 in person

visitors, 4 of those Fridays saw in person visitors recording mining claims. Jeb Rowley commented that his office also tracked Friday foot traffic and showed a significant decline in normal volume.

<p>2. Open public hearing and invite comments on the implementation of a 4-10 work week schedule, or possible pilot program of 12 to 18 months, for some if not all County Offices. <b>(Discussion)</b></p>
---

Chairman McKay opened the public hearing for comments, Appraiser Supervisor Matthew Grimm echoed Assessor Mears sentiments and also commented on the travel that his office sees to the North end of the County and how the extra 2 hours would greatly benefit their work day. Patricia Aiken commented in support of the 4-10 work week and commented on the better retention of employees and how it can create a better work environment. Kathy Porter commented the 4-day week is one of the reasons she moved from a county office to the school district years ago. She also commented on the great benefit the 4-10 office schedule would be to staff and their families. Eureka County was the first school district to switch to the 4-day school week over 17 years ago and since then 13 of Nevada's 17 school districts have made the switch. Kathy Porter also commented that she personally does not come to town on Fridays to conduct business she chooses to do it during the week. Laura Shivers commented on her concern of availability to mine workers, retail and restaurant workers, she commented on the option of a survey the public could take. Robin Hicks commented that she worked for the school district when it was transitioning to the 4-day school week, the admin worked a rotating 4-10 schedule covering Fridays. She commented that if they needed to be open on Fridays for the public, offices could consider rotating the Friday option. Winnona Eversgerd commented she retired from the school district and was part of the group who really pushed to do the 4-day week at the school. She commented in favor of the pilot study. She commented that at the time the main complaint was childcare on Fridays and those worries mainly came from those who worked for the county. She believes the core of our community is looking out for our families. Winnona Eversgerd also commented that she owns a business on main street and Friday is their slowest day of the week to the point they aren't even open. Public Works Director Jeb Rowley commented in support of the 4-10, he commented he can not justify staying open on Fridays for the potential of a credit card payment over the phone. Sheriff Umina commented in support, he mentioned that his patrol staff work a rotating schedule, and he sees the benefit of having more days off in a row. He has seen happier and more productive staff in his office. Comptroller Kim Todd commented the Board may see departments requesting more employees to help cover the extra hours during the day, she commented that her office can not do the 5-10 schedule rotating Fridays due to not having enough employees. She commented she does not think we owe it to the taxpayers to add more employees just to accommodate a schedule. Deputy Clerk Recorder Katelyn Ziemann commented that the public can access documents 24/7 through the county website and print them for free. They also already offer eRecording, people can submit documents 24/7 as well. She believes that being open half an hour longer in the evening would help accommodate those who are changing shifts. Senior Center Director Linda Gordon commented she would like to see the 2 senior centers on the same schedule but still being open for food bank and Friday breakfast.

**Chairman McKay closed the public hearing.**

The offices that the NRS 245.040 states may deviate from the hours of operation are Eureka County Sheriff, Assessor, Clerk-Recorder, Treasurer and Comptroller (Auditor), District Attorney and Justice Court. The board agreed that all other departments may choose the 4-10 or 5-8 schedule that best fits their employees. Starting January 4, 2026 to line up with payroll, the County offices will move to a 4-10 work week for a pilot period of 12 months. The amount is for \$140,193, they would have to spend over \$6,000 a month on the vans. Director Gordon does not believe they use the vans enough to justify \$6,000 a month when the vans are used a handful of times a month.
